# WARSAW, POLAND

The leading economy in Central and Eastern Europe, **Poland is the proud Host of the 2016 Global Summit of Women**. Over the past 25 years, Poland has become a leading symbol of regional stability, having transitioned to a vigorous democracy, while advancing its political and economic profile on the international stage.

Serving as a magnet for multinational companies both as a manufacturing and growing consumer base, Poland has emerged as a gateway to emerging markets in the region. The booming Polish economy has grown tremendously, more than doubling its GDP over the past two decades, despite the global financial crisis which staggered growth throughout the world. Throughout the recession, Poland was recognized as the only EU economy to sidestep an economic decline.

Women are increasingly present in Poland in leadership positions in both politics and the business world. A woman Prime Minister, Beata Szydlo, heads up the new government formed in October 2015, replacing another woman Prime Minister. Aside from leading various government ministries, a woman, Hanna Gronkiewicz-Waltz, also serves as Mayor of Warsaw, one of the largest cities in Europe. Outside of government, Poland's influential women's networks are making a mark on public policy through the innovative nation-wide Congress of Women. In addition, an active women's entrepreneurial community has ensured that women are present in all industries and playing a key role in Poland's leadership in the creative industries.

**Prime Minister of Poland, Beata Szydlo**

**Mayor of Warsaw, Hanna Gronkiewicz-Waltz**

Warsaw, the business and financial capital of the country, holds significant cultural, economic, and political influence nationally and internationally. It is home to the headquarters of top Polish companies as well as the location of the majority of foreign companies doing business in Poland. With a rich heritage based on a 1,000 year historical tradition, Warsaw offers some of the country's top cultural attractions to balance its financial centers.
